

# PORTABLE MEDICAL REFRIGERATOR OR FREEZER RANGE

**NULINE**  
REFRIGERATION

- Ensure safe storage of valuable vaccines from one location to another without using external power with these portable refrigerator or freezers.
- The unique pull handle makes it easy to move from one location to another.
- The unique lithium battery can operate up to 96 hours on one charge on the refrigerator unit or 48 hours if using the freezer unit.
- If needed you can simply plug it into your car via the 12V DC option. All power cords are included giving you the options to power-up in multiple convenient ways.
- Comes with all the features required to safely store vaccines as you would using a traditional refrigerator, except you can take this one with you.
- The data logger provided not only keeps records for the temperature but will also send you app notifications if there are any temperature issues.
- All historical information, including High/Low temperatures, can be accessed by an easy-to-use app.
